# Norwegian Centre for ICT in Education

http://www.iktsenteret.no

---

- The Norwegian Centre for ICT in Education is an executive agency for the Ministry of Education and Research. The centre was established on 1 January 2010
- Repository for digital learning resources is located at http://www.utdanning.no

# NORLOM

- Norwegian application profile of the Learning Object Metadata specification, inspired by UK LOM Core and CELEBRATE
- Few changes made to the original LOM data model
- Presence type (mandatory, recommended, optional)
- Vocabularies
  - Learning Resource Type (Translation of CELEBRATE vocabulary)
  - Educational Context (Vocabulary aligned with the norwegian education system)
  - Intended End User (Norwegian translation of LOM vocabulary)
  - Classification (Three additions made to the LOM vocabulary; grep (K12), basis (AE), vitenskapsdisipliner (HE))
